I'm a  
rectangle!

## Find that Shape!

Open the map: <http://bit.ly/1mKmfTY>

Click on the map on the state shape to get the state name.

What states are in the shape of one rectangle?

What states are two rectangles stacked together?

What states are *mostly* a rectangle? (maybe some extra squiggly parts on some corners)

Are there any rectangle states that touch each other? If yes, name them?
