Complete this form and send it as e-mail attachment to: Miriam.Pomilio@state.de.us

Computer Labs will be available; however, you are welcome to bring your own tablet or laptop. If you bring your own device, it will simply need to be able to connect to the internet. The GIS ConnectEd in Delaware workshops are funded in part, by a competitive grant program by Esri and in cooperation with the Delaware Technical Community College. The educators who secured the \$5,000 grant have designed a two-day workshop to deliver training so participants can engage classroom students and other educators in meaningful activities in support of academic studies. Participants should expect to engage with the workshops for the full time period. The stipend depends on full participation of one of the workshops and is for Delaware Educators Only.
