

SUMMER 2019 REGIONAL WORKSHOPS

Delaware Technical Community College, Newark, DE: June 25-27, 2019

Introduction to ArcGIS Pro

This workshop will be an Introduction to ArcGIS Pro. Participants will learn how to make and share maps, how to work with spatial data, and learn the new workflows associated with ArcGIS Pro. Previous desktop or ArcGIS Online experience required.

San Diego State University, San Diego, CA: July 15-17, 2019

This workshop will have participants using drones for data capture and for the derivation of 3D models, designing and publishing local projects using ArcGIS Online, creating and developing StoryMaps, performing spatial analysis using ArcGIS Online, and exploring data capture apps such as Survey123. As part of this workshop, participants will develop a lesson or exercise that can be used in one of their courses.

Location: Richard Wright Spatial Analysis Lab, San Diego State University

Parkland College, Champaign, IL: July 31-August 2, 2019

Getting Started with UAVs and FAA Part 107 Certification

This workshop will focus on how to get started with UAVs, will prepare participants to take the FAA Part 107 Certification, introduce the legal aspects of UAVs, and provide participants hands on experience working with UAVs.

Location: 2400 West Bradley Avenue, Champaign, IL 61821

Lane Community College, Eugene, OR: August 6-8, 2019

Participants in this workshop will learn how to work with ArcGIS Online, StoryMaps, mobile data collection apps such as Collector for ArcGIS and Survey123, and other geospatial resources. As part of this workshop, participants will develop a lesson or exercise that can be used in one of their courses.

Location: 4000 E 30th Ave, Eugene, OR 97405

Workshop Details & Requirements

- Workshops are open to middle/high school educators and 2-year and 4-year educators.
- Participants will receive a \$700 stipend for attending a workshop in its entirety. Additionally, participants are expected to develop curricular materials that can be used for teaching purposes and to share these materials with the GeoTech Center Community of Practice.
- A complete application consists of the following materials:
 - Completing the [online application](#), providing a signed W-9, and providing an image of yourself
 - A 1-2 page curriculum vitae (CV) elaborating on teaching and geospatial experience (you do not have to have prior geospatial experience to apply to all workshops)
 - A proposal explaining what curriculum, exercise, or activity you will develop as part of the workshop

APPLICATIONS ARE BEING ACCEPTED FOR OUR REGIONAL WORKSHOPS

APPLY NOW!

Participants must arrange and pay for their own transportation and lodging.

There are no workshop registration fees or tuition.
